

**Faculty Positions in Transportation**  
**Xuchang University**  
**(to become Henan Institute of Science and Engineering soon)**

Preliminary Interviews to be conducted at TRB 2016

Xuchang University (XCU), a rising star of science and engineering education in Henan Province of China, is establishing a comprehensive College of Traffic and Transportation in response to the fast growing market needs of transportation professionals and the national “One Belt and One Road” strategic plan. XCU, now in the process of being renamed to Henan Institute of Science and Engineering (HISE), is geographically located in the City of Xuchang, a historical city strategically located in the right south of Zhengzhou, a city crossed by multiple national key highways, high speed rail lines, and an international airport, one of primary air transportation hubs to be developed in China. Its newly established College of Traffic and Transportation intends to become the largest and the best transportation education and research center in Henan Province.

XCU is now recruiting highly qualified individuals to join a dynamic faculty team to teach and conduct research in the newly established College of Traffic and Transportation. For these positions, we seek outstanding candidates with expertise align with the following areas: traffic and/or transportation engineering, transportation planning, Intelligent Transportation Systems, transportation logistics, and any other relevant fields in traffic and/or transportation. The minimum qualification includes a Ph.D. degree in the required fields of expertise and a desire to develop an independent research program at XCU.

XCU plans to offer competitive compensations and benefit packages commensurate with qualifications and experiences. The selected individuals will have an unprecedented opportunity to grow professionally and scholarly with a newly established transportation college. For an immediate consideration, please send your resume with a cover letter to Mr. Guanghui Zhai at [xczgh@163.com](mailto:xczgh@163.com) or [xczgh@xcu.edu.cn](mailto:xczgh@xcu.edu.cn). Preliminary interviews will be conducted at 2016 TRB in Washington, DC. For information or a request of a preliminary interview, please call 281-788-1267 at TRB.
