

## CALL FOR PAPERS: 3<sup>rd</sup> Bridging Transportation Researchers (BTR#3) Online Conference!

At **zero cost**, and practically zero carbon, BTR brings transportation engineers, planners, & policymakers together globally by removing the burden of travel, the cost of registration, & greenhouse gases associated with transport and accommodation. We welcome researchers and practitioners from diverse disciplines, particularly individuals who are unable to obtain a visa or afford traveling to, and participating in, international conferences. [BTR #3](#) is also designed to address the mass cancellation of transportation conferences due to COVID-19.

Please join us online on **August 5 & 6, 2021** for two days of multi-track Zoom-based meetings!

**Full-paper submission deadline** is May 31, 2021.

### Submission Instructions

The conference paper *word limit* is 10,000 words. All manuscripts should be written in English and, for the purpose of double-blind review, **should exclude any information revealing the names or affiliations of the authors**. The submissions process will be managed via **EasyChair**. Conference registration & details here: <https://bridgingtransport.org/>.

**EasyChair** account registration & login: [here](#). Authors should use this template: [Full Paper Template](#) & submit via this [link](#).

For more details, please visit the **conference website** at <http://bridgingtransport.org/>. For questions, please email [contact@bridgingtransport.org](mailto:contact@bridgingtransport.org).

### Peer Review

Papers will be peer-reviewed, and selected papers will be organized into sessions for web-based presentations during the conference. Although the selection criterion is based on the quality of papers, we strongly encourage researchers facing visa and/or financial barriers to submit their full paper.

### Topics

Any transportation-related areas including but not limited to:

- Multi-modal transportation network & systems
- Freight transport & logistics
- Travel survey methods, big data acquisition & fusion
- Traffic management & operations
- Transport safety & security
- Intelligent transportation systems (ITS)
- Connected & automated vehicles, shared & electric vehicles
- Travel behavior modeling & demand forecasting
- Transport econometrics
- Land use planning & policy
- Environmental impacts & sustainability
- Transport economics & policy
- Design, construction, & pavement engineering

### Organizing Committee

#### Chairs:

[Prof Kara Kockelman](#) (University of Texas at Austin, USA) & [Dr Elnaz Irannezhad](#) (Australian Road Research Board (ARRB), Australia)

#### Organizing members:

[Dr. Behrang Assemi](#) (Queensland University of Technology, Australia)  
[Dr. Alireza Ermagun](#) (Mississippi State University, USA)

[Al Gerayeli](#) (Kimley-Horn, USA)

[Jason Hawkins](#) (University of Toronto, Canada)

[Yantao Huang](#) (University of Texas at Austin, USA)

[Dr. Alex Karner](#) (University of Texas at Austin, USA)

[Dr. Jun Liu](#) (University of Alabama, USA)

[Dr. Neda Masoud](#) (University of Michigan, USA)

[Dr. Mahmoud Mesbah](#) (Amirkabir University of Technology, Iran)

[Vahid Salehi](#) (Isfahan University of Technology, Iran)

***We look forward to hearing from you!***

**Save carbon & cost, while educating & connecting our community!**
